## RENTAL STAGE SET

# The Summit

This unique mountain landscape stage set can easily be dressed for either a winter or summer look. Sculpted foothills in the foreground lead you into views of the distant towering summits in the 16' by 35' backdrop, perfectly framing a 9' by 12' RP presentation screen as the centerpiece. (Backdrop without screen opening also available.)

The three-dimensional hills stand at 35' wide, 10' tall, 15' deep.

The sky portion of the backdrop is translucent, allowing illuminated star lights to show through.

This set comes comes to life with such finishing touches as natural brush and 3' by 3' boulders. "The Pine" rustic log podium is also included.
