

Space System Truss

Specialty Facing Vortex Instructions

If Specialty Facings are required please use this Instruction Manual then return to the Standard Manual to complete the Set up

Step 1:

Flip the unit over on its back to add the Vortex Panels (Images 1)

Image 1

Step 2:

Using the Velcro or Ties on the Panel, attach to the Straight Cords in the corners of each square in the Truss Unit (Images 2 & 3)

Step 3:

Stand Unit Upright to pull the center of each Vortex back
Use the Velcro or Ties and Attach directly to the Hub (Images 4 & 5)

Please refer back to the Standard Set Up Instructions to complete the Space System Truss Unit with Vortex Facings
