<u>PIPE-AND-DRAPE</u> <u>UPRIGHT MOUNT</u>

SETUP INSTRUCTIONS

STEPS

- Add 50 lbs sandbag to P&D base
- · Cinch Upright Mount Adapter onto pipe-and-drape upright
- · Attach T-Bar with wing nuts
 - Check level before tightening
- Wrap black Pole Sock around Adapter; let slack dangle (dress after extending)
- · Attach Velcro Hanging Straps to T-Bar (number and spacing varies by type of scenic panel)
- If not pre-strung, attach scenic panels to Velcro Hanging Straps using guidelines on back of straps for spacing
- · Extend upright to final height
- · Attach bottom of Velcro Hanging Straps to Ballast Batten with a bit of tension; dress excess
 - · Adjust placement of Ballast Batten and tension on straps to fine-tune how the panels hang
